Gary,

There are no permanent wells on site. The groundwater sampling we did in the previous RI phase was from temporary wells.

Have you talked with Lazarus lately?

Subject: Falcon Refinery

Stephen:

Do you know if there are permanently installed groundwater monitoring wells located onsite and where they are located?

Thanks

Gary Moore

which may be a computer program. This attached computer program could
contain a computer virus which could cause harm to EPA's computers,
network, and data. The attachment has been deleted.

This was done to limit the distribution of computer viruses introduced
into the EPA network. EPA is deleting all computer program attachments
sent from the Internet into the agency via Email.

If the message sender is known and the attachment was legitimate, you
should contact the sender and request that they rename the file name
extension and resend the Email with the renamed attachment. After
receiving the revised Email, containing the renamed attachment, you can
rename the file extension to its correct name.

For further information, please contact the EPA Call Center at
(866) 411-4EPA (4372). The TDD number is (866) 489-4900.
